

10 HOME REMEDIES TO GET RID OF PIMPLES

1. Tea Tree Oil

Its antibacterial properties fight pimple-causing bacteria, while anti-inflammatory properties reduce redness and swelling.

2. Lemon Juice

Contains vitamin C and acts as a natural astringent, helping to dry out pimples and lessen inflammation

3. Aloe Vera Gel

Soothes irritated skin with anti-inflammatory and antibacterial properties, reducing redness and swelling.

4. Honey

Antibacterial and anti-inflammatory, it helps eliminate acne-causing bacteria and lessens redness, promoting healing

5. Ice

Reduces inflammation, numbing the area and providing relief from pimple-related pain or itchiness.

6. Cucumber

Cools and soothes with its anti-inflammatory properties. Apply slices or cucumber paste to the affected area.

7. Egg White Mask

Tightens pores, reduces excess oil, and aids in skin healing with proteins.
