

HOW TO REMOVE DARK SPOTS ON FACE FAST?

7 Best Home Remedies

1. Turmeric

Mix with honey, apply, and rinse for results in 2 weeks. Avoid if you have sensitive skin.

2. Lemon Juice

Mix with honey, apply, and rinse after 20 minutes. Use 2-3 times weekly. Be cautious with sensitive skin, and wear sunscreen after use.

3. Aloe Vera Gel

Apply for 30 minutes, twice a day for weeks. Can be used as a toner at night. Rich in vitamins A and C.

4. Honey

Apply directly to dark spots or as a mask with milk. Use twice weekly for best results. Controls acne and reduces scarring.

5. Potato

Slice, grind, and apply as a paste. Suitable for all skin types. Reduces dark spots within 2 days.

6. Cucumber

Soak cucumber slices in water and apply to the face. Leave overnight and rinse in the morning.

7. Tomato

Apply tomato juice directly or mix with honey. Repeat up to three times per day for results within two weeks. A natural alternative to expensive products.
